

Werner Maleczek, Newly discovered and little known privileges of Pope Innocent III (1198–1216) with cardinals' signatures (p. 107–111)

Following the author's monograph „Papst und Kardinalskolleg“ (1984), which explored the cardinals' activities partly based on their appearance on the signature lists of Pope Innocent III's privileges, which were collected in this work, a first addition to the cardinals' biographies was published in 2003 (in: Innocenzo III. Urbs et Orbis). Since then, eleven more privileges have come to light, which are calendared in this paper, with complete lists of the subscribing cardinals.
